7.62×51mm NATO	Red	Green
7.62×54mmR	Red	Yellow

Yellow denotes functional use on the cartridge, but is not ideal due to:  
-smaller/lighter options available  
-larger options more suited to powder charge available

Blue represents use cases that are not advised. They will cause no harm but will result in unnecessary fouling that can be very difficult to remove.

RED is BAD! At minimum, use in these cases will void warranty. At worst they will result in personal injury and/or property damage.
